Re: Comment on Water Quality Control Plan for Delta

Dear Sir:

CCRC Farms and Tuscany Research Institute, co-applicants under Application 30416 to appropriate water in the Delta at Mandeville Island, hereby join in the comments of Delta Wetlands presented to the Board at the hearing on February 23, 1995, with respect to their own Application 30416. These Co-Applicants submit that their proposed project at Mandeville Island should also be included as another project which could improve water supply reliability in the Delta by increased off-stream storage, etc. and the Mandeville Project should also be included in the environmental documentation as a viable off-stream storage project as well.

Very truly yours,

Daniel F. Gallery
